Subj: Proposal for Heat Radiant Barrier and Insulation

Following is our proposal to install heat radiant barrier foil and insulation in the attic of the building we looked at on Tuesday, October 18, 2010.

Coolattix will enclose complete ceiling area of attic area we looked at from approximately 20 inches from floor on rafter beams to approximately 18 to 20 inches from top of ceiling at a cost of \$14,347.00, which includes all materials and labor. Installation of total area will be completed within a 2 day period.

Coolattix will install insulation on the section of wall we looked at from floor to ceiling with R19 insulation for a cost of \$2,560.00 wich includes all materials and labor. Installation will be completed same time as installation of heat radiant barrier foil.

If you should have any further questions, please call me at 713-724-7342.

Thank you for your time, and we look forward to working with you in the future.
